Printed Nov 2016

## Availability

available on Community FP10 since 2004 for patients with a Schedule II medical condition (SLS) or O.T.C.

## Efficacy: 92%

8% either contraindicated (active coagulation disorders) or patient lacks sufficient manual dexterity  
Over 50 published studies: contact@imedicare.co.uk

## Safety

minor risk of petechiae and / or oedema when used correctly.

## Cost Effective

5 year cost of £231.22 (Device + two ring sets)  
Twice daily frequency of use possible

## Stf - Size to Fit

helps to minimize peri-pubic loose tissue entrapment - optimizing comfort and user satisfaction

## Structural Rehabilitation

regular therapeutic device application prevents and reverses non-use atrophy (mechanical inactivity of cells causes apoptosis and corporal fibrosis / penile shrinkage) leading to normalisation of penis size and preservation / restoration of penile tissue architectural integrity.

## Demonstration Service

IMEDicare Regional Representatives ensure correct customization and technique of use by one to one demonstrations either via local Urology or home visit. Ensures success and compliance. Free service (triple audited) available UK and Eire - all regions.
