# Key Features & Benefits

Infla10<sup>®</sup> AX is designed with years of experience in urology and with one thing in mind; an innovative device that offers safety and effectiveness for you and your patients.

## Length Expansion

Offers the patients anatomical girth and length expansion addressing concerns regarding post-operative penile shortening.

## HydroShield™ Coating

Infla10<sup>®</sup> AX incorporates a hydrophilic coating on all external component surfaces. The hydrophilic coating offers you the freedom to choose the aqueous solution. Hydrophilic coating facilitates the rapid and strong absorption of the solution on the device and may promote easier device implantation.

## Rapid-Pump™

Our innovative pump mechanism offers greater ease and speed for your patients when inflating and deflating the prosthesis.

## AdaptiveReservoir™

The reservoir will easily take the shape of the implantation site offering post-op comfort for your patients.

## Easy-Click™ Connectors

All tubing connects easily without any additional assembly tools. Simply click to secure connections.

## ConnectSecure™ Rear Tip Extenders (RTE)

ConnectSecure™ RTE provides a secure and rigid connection.
