

QUESTIONS AND ANSWERS

What is “Ejaculation or Climax Control”?

Ejaculation control or climax control can be defined as a man’s motor ability to decide the duration of sexual intercourse, taking longer or shorter to ejaculate as he pleases. MYHIXEL allows men to acquire the skill of “climax control” to control ejaculation, with the aim of significantly increasing sexual pleasure and satisfaction of both men and their partners.

What is the “Ejaculation Reflex”?

Ejaculating is a reflex that takes place in two phases:

- + **1. THE EMISSION:** in this phase, the sperm duct, the seminal vesicle, and the prostate contraction, passes the sperm into the urethra’s base, which causes tension in the area. Sometimes, for the man, this phase can be felt as the point of no return.
- + **2. THE EJECTION OF SPERM:** a muscle around the base of penis and the anus (called the pubococcygeus muscle or the PC muscle) tightens and contracts rhythmically and the sperm is ejected through the urethral meatus.

MYHIXEL’s methodology teaches you to control the mechanisms involved in the previous emission phase. As a consequence, it allows you to decide when to trigger the ejaculation process.

What is the difference between ejaculation control and duration?

Men usually worry about how long they take to ejaculate and believe they suffer from premature ejaculation if they do not last for as long as expected. The real issue is that they have not acquired the ability to control ejaculation. In this situation, other treatments are focused only on helping men to last longer in their sexual encounter by delaying ejaculation.

MYHIXEL’s methodology goes further, because it teaches you to control your ejaculation time, so that you can decide whether to extend it or shorten it according to your specific needs. MYHIXEL is the only device/App method that offers men a specific solution for climax control. Therefore, any man, regardless of his current duration, can benefit from this scientific revolution. Hence, the two proposals that presents MYHIXEL to the market: MYHIXEL MED and MYHIXEL TR.

What is the MYHIXEL Play experience like?

The MyHixel Play App allows men to learn to control the physical and mental aspects that are involved in their climax. MyHixel have converted our methodology-developed and scientifically tested by our team of sexologists-into online intuitive gamified App with a series of activities that continually adapt to the user results and needs. The App will guide you through a “space trip” taking longer to travel between each planet. All of this is carried out in an easy, comfortable and fun environment, from the privacy of your phone or tablet. Men will have fun improving their sex life whenever and wherever they want. MYHIXEL guarantee complete privacy, confidentiality, anonymity, and security of the activities and data while using our app.

Sometimes I last less than 3 minutes, but not always, which program should I choose MED or TR?

Two programs that match with two needs, whose access is determined by which MYHIXEL pack you purchase: MYHIXEL MED, designed for men who have been ejaculating in less than 3 minutes since they’ve started having sexual relations, and the MYHIXEL TR package includes a free consultation with one of MYHIXEL’s Sexual Therapy specialists. On the other hand, MYHIXEL TR, designed for those whose premature ejaculation occurs during punctual situations and can be related to anxiety or stress. In our MYHIXEL Play programs, user data is completely anonymous and meets strict security requirements, completely protecting your privacy.

About MYHIXEL

What is MYHIXEL?

MYHIXEL is a pioneer brand that takes care of men's sexual welfare worldwide. That's why MYHIXEL have launched the unique solution that helps you gain self-confidence and improve the quality of your sexual relationships by controlling ejaculation. Currently, MYHIXEL offers two revolutionary methodologies, developed by professional sexologists, that combines the most innovative masturbating device (MYHIXEL I) with a gamified online program (MYHIXEL Play). This method helps you control your ejaculation and make your sexual relationships last much longer.

Can we trust in the efficiency of MYHIXEL? Has it been tested?

MYHIXEL cares about improving men's sexual health in a natural way. For this reason, it has been tested in real men and obtaining effective results without drugs, side effects, or anaesthetic creams. Our methodology has been developed from the research work carried out by our sexology team in collaboration with the Miguel Hernández de Elche University (UMH) and the Murcian Sexological Institute (ISM). The results obtained with more than 500 patients support the research that our team has been developing since 2015. With it we have scientifically verified that we provide a natural treatment that allows you to effectively control ejaculation, tripling the duration of your sexual intercourses.

What makes MYHIXEL different to other treatments?

MYHIXEL has been scientifically tested. It offers you the most innovative programme in the field of ejaculation control without using medication, losing sensitivity or any other kind of therapies. By using the MYHIXEL method, you will reach a higher level of controlling the moment of ejaculation in a natural way, while at the same time, increasing your confidence and self-esteem

MYHIXEL MED

What is MYHIXEL MED?

MYHIXEL MED is a cognitive behavioural therapy for **ejaculation control** that combines the exercise program **Play MED**, designed for men who ejaculate under 3 minutes during penetrative sexual intercourse, **with MYHIXEL I**, a unique device that offers the most realistic sensation of penetration ever. This combination gives you the key to achieving climax control and has proven to multiply up to 7 times your current sexual stamina level.

MYHIXEL MED is For You If...

You ejaculate in less than 3 minutes during penetrative sexual intercourse and happens regularly or since the start of sexual encounters.

MYHIXEL MED Can Also Interest You If...

You want an alternative treatment that teaches you climax control without side effects.

MYHIXEL TR

What is MYHIXEL TR

MYHIXEL TR is the answer for men who want to take more control and **last longer in bed**. It combines the exercise program **Play TR**, designed for men who want to learn specific motor skills to improve the quality and duration of their sexual performance, together with **MYHIXEL I device**, which allows you to exercise and improve your sexual capacity. Begin to innovate in your sexual relationships and **decide when to ejaculate**.

MYHIXEL TR is For You If:

You want to **improve your ability** to control your ejaculation, because you can't always manage. This difficulty to control your ejaculation usually occurs during **punctual situations** that can be related to stress or anxiety.

MYHIXEL TR Can Also Interest You If...

You are able to control but you're looking for a tool that helps you acquire **new abilities** to enjoy more alone or with your partner.
