TO MATCH YOUR VOLUME OF LEAKAGE

Live life on your terms and look good doing it

! CHOOSE LIFE – NOT LEAKS!

Managing Bladder Leaks

One of the problems many women (as many as 1 in 3) experience unfortunately in Menopause or after is Stress Urinary Incontinence. The problem occurs when muscles in the base of the pelvis are weak (perhaps from pregnancy, childbirth or natural aging) and when hormonal changes associated with the Menopause (the reduction in levels of the hormone Oestrogen) cause further degradation of the Pelvic Floor Muscle resulting in loss of muscle bulk or thickness, loss of normal muscle function and fitness.

Weaver Washables are new, washable, stylish, effective and discreet underwear used to manage incontinence. As an alternative to using conventional disposable incontinence pads, Weaver Wearables work really well, look just like normal underwear, and are better for the environment.

iMEDicare offer a **FIRST PACK GUARANTEE** on a 3 pack purchase - either a full refund within 30 days or an exchange to a different style until you find what works best.

Featuring a diverse range of styles (Banded Leg Brief / Cotton Comfy / Lace Sides Brief / Lace Front Brief / Seamless Brief / Panties Ladies Max and many others) and colours (Black / Beige / White) - Weaver absorbent products have a Triple Layer Hydrex System: a top sheet that wickers moisture away from the skin, and a core area that locks in the moisture, with a waterproof outer layer - giving you the confidence to get out doors and be active again or just get back to your yoga class!

BRIEFS PER PACK **
