

Hush Hush
Seamless Panty
Absorbency up to 100 ml

Introducing *Hush™*

Every day confidence
panties for women

Moisture Wicking
Lace Waist Panty
Absorbency up to 100 ml

Wearever offers groundbreaking undergarments for people with urinary incontinence, providing the ultimate reusable, washable alternative to adult diapers. The men's briefs and women's panties are especially beneficial for active individuals who want to continue their normal lifestyle without worry or emotional stress resulting from incontinence. The garments' innovative absorbency stems from its Unique-dri (TM) three-layer fabric system, made up of a woven material of polyester, rayon and anti-microbial fibres.

WASHABLE INCONTINENCE UNDERWEAR
CONFIDENCE FOR LIFE

wearever®

- One-piece discreet design with built-in pad — regular, super and maximum absorbency (650 ml)
- Patented absorbent, odour-control microfibrres (silver ion impregnated)
- Washable, reusable over 200 machine washes
- Looks and feels like regular underwear
- Protect the environment from disposables
- Maintain your patient's dignity
- Best value option for the NHS and your patients pocket

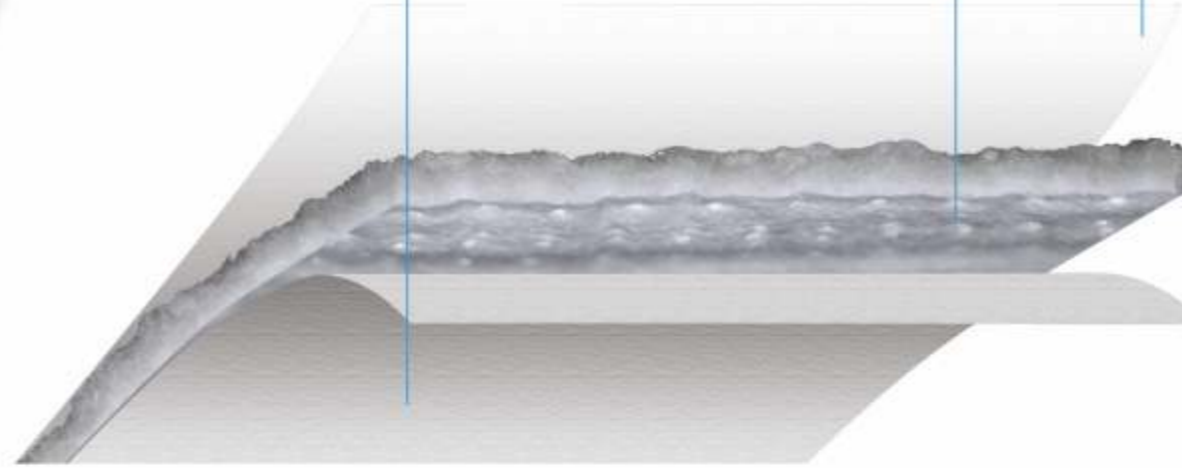

Triple-layer layer Hydrex™ and Unique -Dri™ Systems Silver ion anti-microbial fibres

Polyester inner lining wicks moisture away from the body

Unique-dri® pad rayon middle layer disperses (preventing pooling), absorbs and traps liquid. Anti-microbial fibres reduce odour causing bacteria (silver ion impregnated)

Bonded waterproof urethane outer layer prevents leakage.

wearever®

Wearever can be washed and reused more than 200 times, the cost per day is less than £0.27 per day (based on 650 ml capacity 7 pack - buy 6 one free, used once daily).

Wearever are woven and breathes through large pores, e.g. allows perspiration to evaporate from the skin, keeping the skin cooler and minimizing the conditions for skin maceration and break down. Incorporating silver ion impregnated fibres in the garment inhibits bacterial growth further protecting the skin.

Wearever are sized to fit and mold to body contours. They are woven without rigid seams or pressure points. The feel and comfort is the same as one's ordinary underwear.

Wearever are worn as normal underwear. There are no special devices or inserts. Simply wear and launder as you would normal underwear.

Wearever allows the user to wear normal fitting underwear that serves to help manage leaks. Because it fits / functions as normal underwear, the user need not worry about public perception.

wearever® Cost Savings Analysis

Product	Wearever Womens Max Midrise White LG - 650ml capacity	Tena Lady Maxi 550ml approx
