POST-TREATMENT FORESKIN CARE GUIDE

novoglan[®]
INTACT. PHIMOSIS FREE

Congratulations on commencing your **NOVOGLAN** treatment, you're well on your way to reclaiming your lifestyle, to live painlessly intact and phimosis-free. Now is the ideal time to integrate a proactive daily routine to support your post-treatment, intimate skin wellness.

WHY IS IT IMPORTANT?

A proactive, gentle daily skincare routine can help keep the foreskin and glans clean, comfortable and supported during and indeed, after phimosis treatment.

Using premium Novoglan skincare products regularly can help maintain soft, supple penile skin and support the natural barrier that protects this delicate area.

Simple daily care is the easy and effective way to maintain your post-treatment results, reduce everyday irritation and reduce risk of recurring phimosis symptoms.

RECOMMENDED SKINCARE ROUTINE:

Foreskin Care Guide	When to use	Key benefit
NOVOGLAN Essential Non-Surgical Phimosis Treatment Kit	Daily for up to 30 minutes at home whilst resting (watching TV, reading etc)	Gradually stretches to expand skin tissue volume to improve foreskin retraction in adults with phimosis
NOVOGLAN Gentle Cleansing Soap	In the shower or bath, once daily or more often as needed	Gently cleanses sensitive skin without harsh soaps that can dry or irritate
NOVOGLAN Enriched Skin Conditioning Cream	Daily after cleansing and drying foreskin. Is also helpful 2 hours before/after phimosis treatment	Keeps intimate skin soft, supple and comfortable
NOVOGLAN Prepucil Revitalizing Oil	Apply daily, prior to bedtime and/or dressing for the day ahead	Reduces friction, supports comfort and leaves skin feeling smooth
NOVOGLAN Personal Glide Gel	Suitable for daily use as required	Smooth, long-lasting glide to reduce friction and discomfort

1. ENRICHED SKIN CONDITIONING CREAM

- This premium moisturising and conditioning cream is enriched with Vitamins and nourishing oils
- Deeply conditions sensitive intimate skin.
- Ideal for conditioning tight foreskin tissue
- Gentle and safe for daily use.
- Can be applied 2 hours prior to foreskin stretching treatment and again 2 hours after.
- Use up to twice daily for ongoing, post-treatment care.

2. GENTLE CLEANSING SOAP

- Deeply and gently cleanses the skin and is suitable for all skin types
- A non-sudsing, naturally moisturising gentle liquid soap, expertly formulated for daily use as body wash
- Not all soaps are suitable for daily cleansing of sensitive skin - many contain harsh chemicals that can irritate.
- Novoglan Gentle Cleansing Soap is ideal for daily use

3. PREPUCIL REVITALISING OIL

- 100% natural organic oils with Vitamin A, to revitalise dry, stressed or chaffed penile skin.
- Protective daily use formula revitalises intimate skin prone to chaffing or irritation.
- Apply oil once daily after bathing or showering and fully massage it in, for best results.

4. PERSONAL GLIDE GEL

- High quality water based personal gel ideal for sensitive penile skin.
- Clear silky-smooth gel formula for external skin, prone to friction.
- Helps reduce risk of chaffing.
